Texan Reloaders went out of business years ago. Manuals for their products, and spare parts that are not standardized, will cost you collector prices. There will be zero customer support for these. Any part or piece of information you want for these will be pricey, hard to come by, and already old.

as to a manual there is a guy on the bay that sells manuals. have been watching but he nevers has the FW that i need, yours looks like it is also an FW. might try to direct contact him about the manual, never know. he lists under Texan reloading, local western washington state

**texan shotshell loader - Cast Boolits**

I aquired a house from my girlfrield's uncle and he was quite a collector. Yesterday I found a Texan reloader in the botoom of a chest, still wrapped in plastic with the user manual and warrenty card. Anybody ever use one of these units? It seems to be heavier duty than my Mec. I'll post a pic later today.

I have a Texan RT 20ga press which is complete except for the powder bar actuator rod. It looks well made with quality tooling. The short dual charge bar /bushing system is an interesting approach. It's a neat old press with lots of heavy cast parts. I've never seen one like it or any information on it.

I have an old Texan that is pretty much like new & have a whole bunch of bushings for it but cant find any info on how much powder or shot each one would drop. Also, is it true that the powder bushings will work in a MEC?? ... Also if you have an older Lyman reloading manual I am pretty sure the bushing chart is in them
