What to check if fuel consumption is too high? ... which have more powerful engines and mine seems to be on the higher end when is supposed to have the most economic engine of all. I have a Toyota Altezza (which is exactly the same as the Lexus IS200), it comes with a 1G-FE engine, which should be more economic than the 3S-GE and the 2JZ ...

### **toyota - What to check if fuel consumption is too high ...**

There is nothing wrong with these engines, like FD said they are the 1800 cc petrol engines, keep the air filter element clean and it will perform alright, but do not expect to drive around on tar roads at 120km per hour all the time, look after the engine, change the oil every 10 000km but this also depends where the vehicle is been used and under what conditions, check the other fluids ...

### **Who can tell me about the 2Y engine? - 4x4community.co.za**

The Toyota Y engine is a design that's a combination of the Toyota T engine, and the Toyota R engine, in a way that's similar to how the Toyota F engine is a design of the Toyota Type B engine, and the Chevrolet inline-six. The Y engine has mostly only been used in commercial and off-road vehicles. The valve arrangement from the Toyota K engine is interchangeable with this engine.

### **Toyota Y engine - Wikipedia**

Hi everyone i'm curious about fuel consumption for my new 86 2.2L 4runner. it has the 4Y engine and at the moment i'm getting about 300k's out of a tank, averaging about 5.7 k's per litre. is this normal? it has 302000 on the clock. it could definitely do with a new set of points, maybe new plugs and a carb rebuild wouldn't go astray but i did not anticipate the fuel consumption was going to ...

Note: Toyota, in 1987, began assigning dual letter engine codes to some of the "engine family" categories in some engine lines, particularly six cylinder models. This can create potential confusion. E.g. 1MZ-FE - This is not a supercharged, narrow angle, fuel injected M-series engine, but a narrow angle, fuel injected MZ-series engine.

### **List of Toyota engines - Wikipedia**

The common rail fuel injection produces ultra high pressure which is 8 times more than the pressure of the normal fuel injection system. It can inject much finer fuel mist. This, when combined

with 32 bit ECU which controls fuel quantity, valve-timing, and accurate pressure at different engine revolutions., result in the most fuel economy.
