light for ABS, airbag, engine light or something else. There are many reasons why the dashboard shows warning lights and below is a list of the lights on the dashboard.

Peugeot 406 dash warning lights - Diagnostic World

Yesterday the car died whilst driving, I moved the connector and it was OK. Because it went off whilst running the engine management light came on and stayed on. Is there any way I can reset the engine management light on the dashboard without a Peugeot Dealer plugging their computer in and charging a fortune? Any help would be much appreciated.
