This 1970 Opel GT which is owned by Brandon Sutton was filmed at 2016 Goodguys Nashville Nationals competing in the autocross course. The film says the car runs a 6.0 L LSx V8 which means it is probably running a LS2 or iron-block LQ4/LQ9. From the video you can see the engine has been setup to run a carburetor.

Polish drifter Paweł Trela has continued to upgrade his Opel GT along with its appearance since 2013. Under the hood sits a 3.0 L 2JZ inline-six that produces 631-887 hp (640-900 KM) and 575-774 lb-ft (780-1050 Nm) thanks to a Garrett GTX3582R turbocharger, 1600 cc injectors, EMU ECU, and nitrous system.

### **Opel GT with a Turbo 2JZ - Engine Swap Depot**

The GT was based on the Kadett chassis with the engine pushed rearward by about 14" for better weight distribution. Considering that the Opel CIH 1.9L is all cast iron and close to 400#, swapping in something modern and aluminum will only lighten the front, so moving the engine forward to make it fit more easily shouldn't mess up the balance badly.

Picking up my 69 Opel GT today. I've been reading as much as I can about the cars. I know guys put in all kinds of different motors. I have a stock 1.9 in it right now but it probably needs a rebuild. I was just wondering what the easiest Engine swap would be in your guys opinion? In relation to weighing more performance with ease of install ...

Opel GT engine swap and resto project? So a local to me Opel GT (71) has come up. It has a blown engine, but it's a manual and the body seems to be in great shape other than paint.

### **Opel GT engine swap and resto project? - NASIOC**

I picked the engine cause 1. unlike MOPAR cars of the same engine size, this one can easily be turbo charged and raced, and 2. a guy I know said he'd help me out with the project since he'd done a similar project with another Opel GT (Only he didn't put a turbo/intercooler on it) Plus, me and my one friend Wayne have only worked on MOPARs.

The goal of this project was to build an Opel GT with around 200 HP but still have a daily driver, well behaved car. Of course other goals included minimal costs and ease of the transplant. My dream GT began probably 10 - 12 years ago after deciding to build a convertible GT and transplanting some super engine into it.

This 1970 Opel GT has had its original 1.9 liter four swapped out in favor of a Honda S2000-sourced twin cam, and despite gaining only ~100cc of displacement, power jumps from 102 to 240 HP. Obviously a work in progress, there's no word on whether it runs, but the engine bay does look good and bodywork is ready for paint.

It's fun to see such a nice example of a 1969 Opel GT as this one. For any small car to have rear-wheel-drive is a treat for me since almost every vehicle is front-wheel-drive or AWD now. ... Engine Swap Candidate: 1975 Opel Manta. This 1975 Opel Manta appears to represent a good foundation for a project, with a clean body, nice interior, and ...

### **Opel For Sale - Barn Finds**

How many of us have thought about how the Opel GT kind of looks like a tiny Corvette? This Opel is a little closer to that realization featuring a V8 with side pipes. Having been a V8 car for over 30 years, this Opel is in need of a little TLC, but the \$2,700 asking price with a tow dolly is making it seem too sweet of a deal to pass up.

### **Tiny Corvette: 1968 Opel GT V8 - Barn Finds**

Even with the relocated engine and a modified valve cover, the air cleaner snorkel of the 1900 S engine would not clear the Opel GT's sloping hood, so a blister was added for clearance. The same issue also kept Opel from installing the hotter 1900 H engine from the Rekord Sprint, which made 106 PS (105 hp/78 kW) with two Weber carburetors ...
