I have a heat shield under the engine of my Peugeot 307 2005 1.6, and it has come loose. When driving along it rattles and has become really annoying. I've got pictures here of where it's located. Can anyone tell me what the name of it is/what it's protecting, where I can buy one, and how I can fit it?

Peugeot 307 Heat Shield? | Yahoo Answers

2- You will need to jack up the front of the car and remove the engine undershield (put the car on axle stands or ramps to be safe) 3- You need to remove the car's battery & battery box and then undo the screws to allow the movement of the brake fluid reservoir to one side allowing access (You do not need to remove the supply hose)
