Can anyone give me any tips / info / plans to build a large outboard motor stand ? Thinking using 2x4s for the legs and a 2x8 for the "transom" board, but not sure if they'll hold that much weight, and don't want to find out the wrong way. Also, I'd like to put wheels on the stand so I can move it around. Thanks.

DIY Outboard motor stand pictures and plans Do you have an outboard motor sitting on the floor of your garage? Looking for a simple way to change oils, winterize it, and/or store it for winter? Take a few hours of time and throw together this motor stand: Here ...

### **DIY Outboard motor stand pictures and plans**

My most essential tool for working on my outboard motor is its stand. Without it, maintaining my 80+ pound, 8 HP Yamaha 4-stroke would be like a wrestling match. You don't want to store an outboard motor lying on a floor or workbench in your garage when it isn't on the boat, especially all winter. You want it to be easy...

### **Turn Scrap Lumber into an Outboard Motor Stand - The ...**

Whether you use it for storage, or a way to swap out one outboard for another, an outboard motor stand consists of two assemblies. One is a framework topped with a board - an engine support rail -- approximately the thickness of your boat's transom, to hold the motor.
