Why liftgate actuator clicking when lift gate is open. I would bet on the liftgate module (LGM) It controls all that stuff back there, wiper, defrost, gate ajar light, gate lock and unlock ect. Might try wiggling the wiring boot where the wires go from the body to the gate, if it changes anything, bet on a broken wire inside that boot. If not the LGM is my first thought.

2010 mazda tribute liftgate won't open - Fixya

Rear door won't unlock or sometimes won't lock. If you do it, you can do it in an hour for about \$20.00. Just buy a universal actuator kit that looks similar to the one already in there from the factory. Do A Google Search on "Mazda Tribute Rear Door Lock Actuator" to find sources for them. This is a VERY common problem on Ford Escapes...
