I have a True Comfort electric floor heating system in a bathroom. The system has been operating just fine since we installed it about 3 years ago. Recently, after our electric company turned the power off to our house for a few hours while they trimmed some trees, the system has been malfunctioning.

Thanks so much for the reply, and sorting out my categorization mistake, cheers. Here's the thing, the True comfort web site is virtually no help and does not have a manual (so no details on the actual thermostat) That being said, I have 76 sq foot kit and a 126 square foot kit, combined wattage output of 2200.
