Great web link, What the write up explains is that the best way to prevent corrosion then deionized water is the better choice. Since it is the ions that allow water to conduct electricity, But distilled water still has some ions depending on distillation, Which has a higher capacity for corroding metal than deionized water,

A motorcycle frame is a motorcycle's core structure. It supports the engine, provides a location for the steering and rear suspension, and supports the rider and any passenger or luggage. Also attached to the frame are the fuel tank and battery. At the front of the frame is found the steering head tube that holds the pivoting front fork, while at the rear there is a pivot point for the swingarm ...
