Telecor 2461 Clock Manual - morgoth.org

Time synchronization is provided through the local or remote NTP server. The clocks utilize Power over Ethernet (PoE) and draw power from network switches thus eliminating the need for separate power supplies. These Analog IP Clocks are equipped with a second hand to mark the fractions of a minute as well as the minute and hour hands.

Telecor - Analog Clocks

The eSeries Digital Clocks provide the perfect digital clock solution for virtually any time keeping application. Clocks are automatically updated with the correct time via the network. Each clock is powered by Power-over-Ethernet (PoE) which delivers both DC power and data. This results in cost savings and simplified deployment.
