"My Perkins 4.108 has become difficult to start, & when it does finally start it is running unevenly, struggles to build up revs & surges back & forth mildly. I have ruled out a fuel problem, new filters have been fitted etc. there seems to be more blue smoke exiting the exhaust. I fear the rings may be shot....has anyone got any ideas?

I am looking at a Perkins 4 cylinder diesel engine in a forklift that won't start. Cranking speed is good. Won't even start or do anything when starting fluid is sprayed in the intake manifold. I removed the air inlet system to spray directly in the intake, nothing happened. It doesn't even smoke out of the exhaust.
