I was playing an old game the other day and needed to look up the manual to refresh my memory on some finer points, then found I couldnt locate it. Bugger! On searching on the Internet I found a site called replacement docs where someone has laboriously scanned all their game manuals and viola, I now have my manual again.

Since the image doesn't appear until that processing is done, it can appear as though the game is running slowly. If your television has an option to turn this processing off, or if it has a "game mode" of some kind, using one of these may help with the issue. Please check your television's support documentation for more details.
