There are a few problems you can come across while using a Toshiba 50HM67 high-definition television (HDTV). One problem is a bad lamp unit, which can prevent the television from working or cause severe picture decay. If there is a problem with the lamp unit, you need to replace it. Other problems cause issues with the TV's audio.

With new TV technologies springing up like crazy, it makes sense to sift through the options and single out the best deals. Although a new 50-inch plasma TV costs much less today than it did a few years back, at around \$5,000 and up, it still ain't cheap. But a \$3,300 DLP (Digital Light Processing) rear-projection HDTV with a 52-inch screen - now we're talking!
