lengths will be studied in terms of transient time effects as well as for steady-statesituations when t approaches infinity. Steady-state solutions, when applicable, are often preferred to transient solutions because the equations are usually less complex and are independent of the time variable and the initial conditions. However, in some circum

Turnkey or a turnkey project (also spelled turn-key) is a type of project that is constructed so that it can be sold to any buyer as a completed product. This is contrasted with build to order, where the constructor builds an item to the buyer's exact specifications, or when an incomplete product is sold with the assumption that the buyer would complete it.
