Toro Engine Repair

I have a model 38052 Toro Snowblower SN 5004348 Mfg 1985 with a Tecumseh HS50 67246E engine SN 4234B. It appears that the governor is not working and the engine runs very fast on full throttle and oil leaks where the rod from the spool exits the crankcase. I have not disassembled the engine as I have to remove it from the snowthrower.
