Word VBA: Getting the Total Number of Pages in a Document

Use the Page and NumPages fields to get the page number and the total number of pages. You can also use the step-by-step instructions. Now you have your page x of y pages numbering. It looks something like this: (I turned on field code shading so that you can see where the field codes are.)

Insert page x of y page numbers in just one section ...

The automatic number can count both total pages and pages in current section. You want the latter. If your sections are properly set up, all you need to do is to change the footer option to count pages of the section. This page explains how to do it in detail for Word 2010. Relevant excerpts:

Changing total page count in Word 2010 - Super User

If you want to include the total number of pages in a document with each page number—for example, "Page X of Y"—you can quickly add these by using a style in the footer gallery. If you want this numbering style in the header instead, you can move the numbers from the footer to the header.

Add page number X of Y to a document in Word for Mac

The total number of page being a `\pageref{LastPage}`. Hey, but this doesn't work with complex page numbering ??? Well, that's not true : One has to put the label at the end of the part where total page number is required.

How can I add "page # of ##" on my document? - TeX

Total page numbers + orientation change I have a footer for a section in my document that has "Page [page number] of [section pages]" I need to change the orientation to landscape of only one of the pages in the section (to display a drawing).

Total page numbers + orientation change - Microsoft Community

Unfortunately you can't really do that in PPT. I suppose you can with code, but barring that, add a textbox that says Page <space space space> of 20 and in the <space space space> part, use Insert | Slide Number. This will update the current slide number, but not the total number of slides. You have to manually input the total number of slides.

PowerPoint 2010 - How to get CURRENT and TOTAL number of ...

Problem. One problem remains, though: The total number of pages in the document is still 20, so the page after the title page says Page 2 of 20. I want it to say Page 1 of 19, since the title page doesn't count.

News, Tips, and Advice for Technology Professionals ...

If you have a length of 3 and a pagesize of 2, you would expect 2 pages (first page has 2 items, second page has 1). Doing this will give you $(3-1)/2 = 1$ page. – joshhendo Sep 1 '15 at 0:23 Altered the original post to accommodate for that aswell, thanks for noticing – Clayton C Apr 11 '16 at 9:07
