### **Philips Log Splitter User Manual - caffetorelli.com**

This log splitter is a machine designed to split wood logs using a hydraulically powered moving wedge. The gasoline-powered engine is used to pressurize the system. This log splitter model is capable of splitting logs up to 24" long and 16" in diameter This log splitter is designed to split logs lengthwise with the grain only.

### **Owner's Manual - Log Splitters Direct**

Users love this slide hammer style log splitter from Logosol for how safe it feels compared to the traditional wedge and hammer. What sets this slide hammer apart is the secondary arm on the side of the wedge and guide rod, which allows the hammer to grip the wood during your first few impacts so it has very little room to deflect or slide and cause an accident.

However, those manuals do exist for a reason. They contain a lot of helpful information about assembly, maintenance, and parts. If you're looking to recover the manual for your log splitter, we may be able to help. While we don't have every manual ever written, we do keep many manuals (old and new) handy for just this reason.
