Trane XR80 - Microamps from the flame sensor? submitted 4 years ago by Solkre. I cannot find this answer online anywhere, or I'm searching the wrong places. How much current should my flame sensor be sending to the board if it's working properly? With the flame on I'm seeing 2.5 Microamps or less.

Trane XR80 - Microamps from the flame sensor? : HVAC

After a little research it seemed the issue I was having with my heater was the flame sensor. Once it arrived I was able to remove the old one and install the new one in less than 10 minutes. My 9 year old Trane XB80 works like new now, just in time to run the ac for the next 6 months and have no need for the heater.
