Topology by James Munkres, 2nd Edition Solutions Manual. The main solutions manual is solutions.tex. When doing exercises it can be useful to see a list of lemmas that have been written as part of the solutions. Running the lemmas.py Python script will build lemmas\_content.tex that contains these lemmas.

Section 19: The Product Topology Let  $\mathcal{B}$  be an indexed family of topological spaces and be their product. The product topology on  $\prod B_i$  is the topology generated by the basis consisting of where each  $B_i$  is an open subset (or, equivalently, a basis element) of  $B_i$ , and all but finite number of equal  $B_i$ .

This text is designed to provide instructors with a convenient single text resource for bridging between general and algebraic topology courses. Two separate, distinct sections (one on general, point set topology, the other on algebraic topology) are each suitable for a one-semester course and are based around the same set of basic, core topics.
