The TM KZ10B engine has cases that are very durable. In fact, we personally couldn't place a replacement interval on this part for the TM. It is very infrequent that a TM engine needs a new set of cases, but for the point of this article, we will say the cases will last four racing seasons with normal wear.

SwedeTech, along with TM Italy, recommends you replace the lower rod bearing and thrust washers  
at about 20 gallons of fuel through the engine for reliability. For optimum performance we advise  
replacing top end parts every 5-7 gallons of fuel.
