Tecumseh Snow King Engine Question

Re: Tecumseh Snow King Engine question My new Snow King sounds exactly like the old 1968 5 HP we had. When running, without any load or without moving the machine, it will occasionally "POP", but it does not surge or run hot enough to make the muffler glow, even at outside temperatures of 70° F.

First off, I have an older MTD YM 2-stage 24"; 10hp tecumseh snow king engine. Runs great, never really had an issue. A strange thing happened to me this morning when getting my snowblower ready to throw this morning. I opened my gas cap to check the fill level and noticed that the metal dish on the underside of the cap was missing.
