For years I have complained that even high-end watches don't come with instruction manuals. That isn't universally the rule, but it is the standard. While that isn't likely to change, brands like Omega are taking the logical next step by creating video instruction manuals and putting them online for everyone to see.

(At left:) A simple and inexpensive small compass can be used to test for magnetism. Just gently pass your watch over it, keeping your watch very close to, but not touching, the compass. If the compass moves, your watch has some magnetism in it, which should ideally be removed. (At right:) Our favorite demagnetizer, a vintage piece from the ...
