I have a light that pops up and says maintenance required soon when i start the engine and goes off after about 5 sec. Doesn't say what maintenance is required. Is this stating that i need an oil change? Should i take it into Toyota dealership and have it checked?

### **Maintenance light | Toyota Tundra Forum**

This light comes on to remind you to change your oil. It comes on 5,000 miles after the last time it was reset. It comes on strictly as a function of those miles-it has no way of knowing whether your oil has or hasn't been changed in the interim-and it never, ever is an indication of something being wrong.

### **Toyota Maintenance Light | Portland OR | Integrity Auto**

The 2007 Toyota Corolla features a "maintenance required" light that comes on when it is time to change the oil and filter. The light trips based on miles driven since it was last reset. If you change your own oil, or if the service mechanic forgets to reset the light, you will need to reset it yourself. This ...
