The biggest advantage of them is that the clutch and shifter are a single entity. When you pull the paddle, you are disengaging and switching the gear at the same time.(Although today's technology uses computer-controlled dual-clutch system which is slightly different from paddle shifter, but paddle shifters were the pioneers of dual-clutch).

When a car has paddle shifters does it still have a manual ...

A traditional manual gearbox has a single clutch that the driver operates with his left foot. The driver selects each gear using a shift lever, a rod that connects directly to the gearbox. An automatic gearbox needs no driver input to determine which gear to select. Some newer automatics have paddle shifters in place of the old D-2-1 selector.

What's the difference between stick shift and paddle shifters?

A semi-automatic transmission (also known as a clutch-less manual transmission, auto-manual, automated manual transmission, trigger shift, flappy-paddle gear shift or paddle-shift gearbox) is an automobile transmission that combines manual transmission and automatic transmission. It

allows convenient driver control of gear selection.

More thrilling, etc... But the car has some pretty good paddle shifters for the automatic version and I hate traffic as it is and I know that traffic is a pain in the ass with a manual, so I like the fact that I have the freedom to choose between having fun driving in corners and stuff vs putting it in regular automatic mode and relaxing.

Scion FR-S, paddle shifters or manual? : cars - reddit

Well, I checked, and there hasn't been a "manual vs automatic transmission" thread title here on this forum for a couple of years. So I thought I would start one to have members discuss their thoughts on the matter, especially in light of recent cars like the 991 GT3/Turbo and all the recent hypercars (LaFerrari, P1, 918, etc) that do not even offer the option of a stick shift transmission with ...

"Stick shift" vs "Paddle shift" transmissions | GermanCarForum

It was a very tough decision since I've always driven manual. I liked the manual gearbox in the one I test drove but thought the clutch was a little grabby and the pedal was a bit high to deal with as a daily driver. Also, the CSC failure issue was a deterrent and I wanted the variety of having something with paddle shifters.
