I know there is no major difference from the other swaps for the 2gr-fe....My question is, wiring wise what is there to overcome? I am on the fence about a v6 swap, and I really am drawn to the 2gr-fe motor versus some of the others obviously due to the power output being much greater than a 1mz, etc. I primarily use my car for road racing/track days so lightness and a good power band up top ...

2GR-FE: Tuning Potential. With Honda engines, most people will go for a naturally aspirated build. The trend with Toyota engines seems to be centrifugal superchargers, and the 2GR-FE is no different. After some research, it appears most 2GR-FE owners agree that a supercharger is the best bang for buck way to get power out of the engine.
