*Comprehending as competently as conformity even more than other will have the funds for each success. next to, the publication as capably as acuteness of this sv650 manual cam chain tensioner can be taken as competently as picked to act.*

### **Sv650 Manual Cam Chain Tensioner**

However, given that the cam chain tensioner "failures" on SVs are almost universally adjusters sticking (that is, ceasing to automatically adjust) I'd suspect this won't be a useful update for most of us. Yes the tensioners can stick (and the early ones are worst for it) but then you get a rattle and can deal with it.

Sooner or later most of us experience the noisy cam chain syndrome. In my case, my SV was nearly 4 years old and had covered 16k miles. The dreaded rattle was coming from the front cylinder. I was hoping that it was just a stuck tensioner, it didn't seem like too much work to remove it and check it.

£400 sounds about right to me if that includes parts. It is quite labour intensive to fit cam chains. The sv will have a tensioner/s more than likely they will be automatic so self adjust. Alot of people fit manual tensioners however as they cant fail (unless you forget to adjust them). And yep, the cam chain is like a cam belt on a car.

I have searched the forums and have not found anything to do with SV650 cam chain tensioner. Apologies if I have missed it. But I have the dreaded SV cam chain rattle. It started about 4 months ago and has got steadily worse. So my question is, has anybody with a SV650 pre 2003 model had the same issue and what did they do to fix it. I am considering getting some of the APE manual tensioner ...
