Options 6.5.1.2 Mode of Operation when input port is set to Port 1 or Port 2 When the user sets the input port to either port 1 or port 2, a link down or TS lock drop does not cause any switch over to the other port. This mode of operation is the manual mode where the user decides what port is being used regardless of the status of the link.

Group of Pictures: MPEG video compression works more effectively by processing a number of video frames as a block. The TANDBERG Television Encoder normally uses a 12 frame GOP; every twelfth frame is an I frame. Graphical User Interface: The use of pictures rather than just words to represent the input and output of a program.
